

The New Face of Cultured Marble

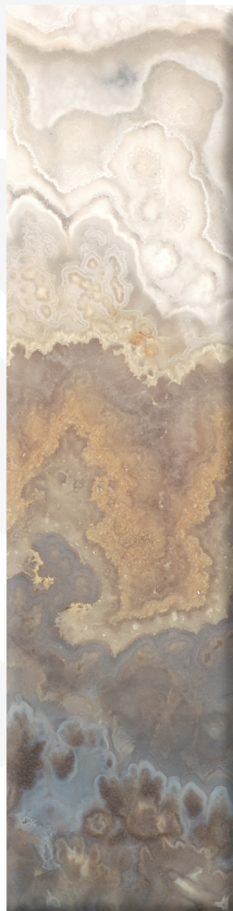

WHAT IS TYVARIAN?

Tyvorian is an innovative and unique bathroom surface that is manufactured with a new patent pending technology that incorporates high definition images into cultured marble. Our stylish new products combine durability and easy maintenance with color and design capabilities limited only by your imagination. Tyvorian's advancements in high definition imaging technology used in bathroom surfaces is causing homeowners and designers to recognize and value that shower walls, vanity tops and trims have never looked so good or performed so well.
